Ako tim chceme mat jednoznacnu metodiku pre definition of ready a definition of done.

Akceptacne kriteria:

- Metodika bude napisana podla existujucej sablony na google drive
- V metodike bude presne napisane co musi splnat story aby bola povazovana za ready a mohla byt hodnotena
- V metodike bude presne napisane co musi splnat story/task aby bol povazovany za hotovy z vyvojarskej strany

[CAR-151] Vytvorenie metodiky review Created: 18/Feb/20 Updated: 03/Mar/20 Resolved: 03/Mar/20

Ako **tim** chceme mat jednoznacnu metodiku pre spravenie review noveho pull requestu.

Momentalne nieje konzistentny sposob robenia reviews, preto by sme chceli mat metodiku, ktora bude navadzat reviewera.

Akceptacne kriteria:

- Metodika bude napisana podla existujucej <u>sablony</u> na google drive
- V metodike bude existovat checklist s generickymi podmienkami ktore musi splnat kazdy task (pull request) pred tym nez bude zaradeny do dev vetvy. Takychto podmienok by mal priblizne byt 10

Ako **product owner** chcem aby boli služby na crawlovanie a spracovanie queue v samostatných kontaineroch za účelom prehladnejšej spravy a logovania.

Akceptačné kritéria:

- Každá služba je vo vlastnom kontajneri
- Upraveny docker compose pre Unix aj windows

• Specialny docker-compose len na crawlovanie a zbieranie dat

Sprint:	CAR Sprint 6

Potrebujeme nas produkt nasadit na produkcny server aby vedel zbierat realne data z inzeratov s ktorymi budeme neskor pracovat.

Akceptačné kritéria:

- Crawler bude rozumne generovat indexove stranky jednotlivych portalov (rozumne = nezaseknutie sa na jednej stranke, prechadzanie kategorii/ znaciek ak existuju, pravidelny reset/ pocrawlovanie prvych *n* stranok nech mame fresh inzeraty)
- Crawler bude prechadzat indexove a detailove stranky inzeratov a spracovavat nove inzeraty
- Crawler bude neustale aktualizovat uz existujuce inzeraty
- Crawler bude archivovat raw HTML inzeratov mimo databazu do zvlastnych suborov
- Archivovane HTML maju jednoznacne priradene URL a timestamp stiahnutia

Ako **product owner** chcem aby bol nakonfigurovany automatický deployment a testovanie, za účelom zrýchlenia vývoja.

Ako CI tool použijeme Travis. kedže je to pre študentské účty zadarmo. Pre každý repozitár bude spustený build zvlášť.

Comments

Comment by Ondrej Harnúšek [14/Oct/19]

travis vs. jenkins

Comment by Max Karel [17/Feb/20]

Pouzitie webhook servera a relay sluzby na docker-compose https://itnext.io/docker-compose-update-on-github-webhook-b212c9433a9b

Sub-Tasks:	Key	Summary	Туре	Status	Assignee
	CAR-154	auto.bazos.sk	Sub-task	Done	Branislav Baláž
	<u>CAR-155</u>	<u>autobazar.sk</u>	Sub-task	In Progress	
	CAR-156	autobazar.eu	Sub-task	Done	Tomáš Vrtal
	CAR-157	<u>autovia.sk</u>	Sub-task	Done	Tomáš Vrtal
	CAR-158	Auto.bazar.sk	Sub-task	Done	Richard Letanec
	CAR-159	prepojenie a testovaci beh s crawlero	Sub-task	In Progress	
Sprint:	CAR Sprint 6				

Ako **product owner** chcem mat funkcne parsery pre ziskanie dat z pocrawlovanych stranok aby som mal co najskor vela dat ktore budu moct byt nasledne pouzite pre natrenovanie modelu na predikcie cien vozidla.

Akceptacne kriteria:

- parsery pre auto.bazos.sk, autobazar.sk, autobazar.eu, autovia.sk, Auto.bazar.sk funkcne
- nazvy atributov (pre objem motora, farbu, prevodovku atd) su jednotne pre vsetky bazary vid tabulka

https://docs.google.com/spreadsheets/d/1lu2Wgd5mw_AjdlB0FTuCVNcjbyPLgA6Y9iazQ_n7xs/edit#gid=0

• vystup parsera splna predpisany vystup:

```
"vin":
    "url":
    "title":
    "price":
    "name":
    "features": {
        ...
    },
    "callback":
}
```

- je potrebne aby parsery fungovali v sulade s crawlerom v prostredi dockeru
- cele to musi bezat uspesne bez chyby aspon 24 hodin
- Index parser musi spravne spracovat neexistujuci stranku

(treba zrevidovat este tu tabulku a ujasnit sa vo vystupe parserov)

Sprint:	CAR Sprint 6					

Ako produkt owner chcem aby všetky mikroservisy mali funkčné testy a tie používali statické dáta.

Akceptačné kritéria:

Testy využívajú mock bazárov (statické textové súbory) a mock testovacej databázy. Každý mikroservis má funkčné integračné aj unit testy.
