Description

Ako product owner chcem mať queue, ktorá bude

- potrebujeme collection v MongoDB pre vkladanie a citanie zaznamov
- ~~potrebujeme procesor zaznamov ktory bude citat a spracovavat zaznamy~~
- po vybaveni zaznamu musi procesor poslat data asynchronne spat

- treba vyriešiť duplicitné záznamy v queue - checkne sa DB a prida/neprida sa
